

# Company/Site Name: West Seattle Window Cleaner

I would like to have a menu bar with an about tab, services tab, contact us tab and a FAQ tab. On the homepage there will be three rotating slides with pictures. Under the slides there will be three cards with information about the company and more pictures.

The about tab will have some info about the owners and our employees

The services tab will have before and after pictures of each service we offer.

The contact us tab will have a form that sends us an email with the information we need to contact the customer.

The FAQ tab will have questions with answers and pictures.

Each page will have a fixed contact us button that will take them to the contact us page.

Sites I looked at for inspiration:

<http://www.hendrixwindowcleaning.com>

<https://www.seattlesqueegeepros.com>

Comparable Businesses:

<https://seattlewindowwashers.com/window-cleaning/>

<https://evergreencleans.com>
